OBRO

The Beauty of Cooking

OBRO, established in year of 2016, professionals in design, testing and manufacturing of modernized kitchen appliances. Which bring you a new cooking style with the latest technology and concept, we offer a greater flexibility, convenience and ease in the kitchen.

TEAM

What We Have To Say

We are a team of professionals for kitchen appliances who continuously study and understand the needs of market and trend of classy living style that people looking forward to. We are responsible for our products' innovation, elegance, technology, quality and simplified design.

PLEDGE

Passion & Dedication

Dedicating ourselves going the extra mile and always serve our customers with a smile is our company's success. We ensure product and service excellence and giving a great experience for every customer.

Many people is following and catching up with this trend. However, the key is always, include trends that you love and that reflect your taste throughout the rest of the home.

What's happening today? Bored of normal cooking way?

TREND

**New trend has come!
It's cool, fun and
entertaining!**

Technology had became part of our life and the intelligence of technology had increased the living style & quality of life.

NOW the trend of cooker hoods & hobs is changing, you may observe a lot of nice and fancy design cooker hood with high standard quality and technology. It had transformed the cooker hood and hob become a fashion of New Living Style & Art of Cooking.

The trend of upper cabinets disappeared and walls can be opened up/change to glass, what we called "Naked Kitchen" with simplified kitchen design, all the appliances and storages have shifted underneath cabinets. Installed with designed and high technology kitchen appliances.

Compact System

The downdraft cooker hood series is a compact version of traditional hood system. The 60cm compact and small designed cooker hood. The sleek design, modern and saving of space for small kitchen..

High Quality Ceramic Glass

A premium kitchen appliances manufacturer that bring you a new cooking style with the latest technology and design, OBRO offers greater flexibility, convenience and ease in the kitchen.

No Hanging Hood

The traditional island cooker hood is huge and take up a lot of space. It was hanging in the middle of the house. The downdraft cooker hood is kind of invisible cooker hood, it eliminates hanging issue, allowing you to see through the entire house and no obstruction.
